Work

Cleartrip Flight Search Redesign Jul '19 - Oct '19

Was a part of a large project of redesigning Cleartrip's entire flight-search experience. Designed and integrated the communication framework for the product.

Sprint 2.0 Aug '17 - Jan '18

Designed the Innovation management software Sprint 2.0 for HackerEarth. Currently adding features and improving the platform with customer feedback.

HackerEarth Year in review 2016 Sep '14 - Oct '15

Designed personalized year in review template for all the active HackerEarth users in 2016. Keeping the whole team on the same page during this was a major win for me.

BuySell ecommerce application Sep '14 - Oct '15

Designed ecommerce application BuySell for IIT Roorkee. Designed the user flows, UI, visuals and wrote the frontend code for the portal.
